Start-up medical firm BiancaMed today announced that it has secured E2.5 million in investment following an investment round.

A board meeting today heard that the round had been oversubscribed and was led by DFJ ePlanet Ventures with participation from existing corporate investor ResMed.

BiancaMed, whose target markets are the fast growing mobile and home-health sectors, was founded in 2003 and is based in NovaUCD, the Innovation and Technology Transfer Centre at UCD.

The firm aims to provide easy-to-use mobile phone and home based wellness and health monitoring technologies and services for use in daily life.
